

Factorio — Investor User Guide

For investors / funders putting capital into verified invoices for short-term, asset-backed returns. Sign in with the **Investor** role; the app is a left-nav cockpit with an AI **copilot** on the right for questions about your portfolio and the market.

Dashboard

Your personalised overview: **portfolio value, net annual return, earned to date and the next settlement**, a recent-activity feed, and quick actions. Amounts are in USD (multi-currency supported).

Marketplace

Every open, fundable invoice as a card — debtor, sector, risk grade (A–D), amount and a live funding-progress bar — with advance rate, fee and estimated return. Filter by sector, grade, term and minimum return.

Invoice detail

Full transparency before funding: the funding panel (raised vs goal, advance, fee, estimated return) and a **debtor-company profile** (registration, sector, country, turnover).

Portfolio

The reporting cockpit: **net annual return** and **account value** panels, an **aging table** (days to / past due), a **payment-habits table** (how settled invoices actually paid), and a positions table.

Statement

A unified ledger of cash movements — investments out (–) and settlements in (+) — filterable by date, type, counterparty and amount, with CSV export.

AI reports (copilot)

Ask questions grounded in your own live positions — net return, exposure by sector or debtor, overdue positions, upcoming settlements. The copilot answers from real data, never invented figures.

The screenshot displays the Factorio AI Reports interface. On the left is a sidebar with navigation links: FACTORING (Dashboard, Marketplace, Portfolio, Statement, Auto-invest, AI Triage, AI Reports), CONSOLE, SALES (Pipeline), and WORKSPACE (Drive, Docs, Mail). The main content area is titled "AI · PORTFOLIO REPORTING" and features a large heading "Ask anything about your portfolio". Below this, a text block states: "The assistant answers from your own positions — net return, outstanding interest, concentration by debtor or sector, upcoming settlements and more. Grounded in your live portfolio data." At the bottom of this area is a chat input box with a "Send" button. The right-hand panel is titled "Copilot" and contains a "COPILOT" section with the text "Ask me about funding, exposure, the pipeline or portfolio." Below this are several suggested questions: "How much have we funded?", "Which sector has the most exposure?", "Top debtors by concentration", and "Summarise the sales pipeline". At the bottom of the right panel is another chat input box with a "Send" button.

AI · PORTFOLIO REPORTING

Ask anything about your portfolio

The assistant answers from your own positions — net return, outstanding interest, concentration by debtor or sector, upcoming settlements and more. Grounded in your live portfolio data.

FACTORIO AI

Hi! I can answer questions about your portfolio — returns, outstanding positions, concentration and settlements. What would you like to know?

e.g. What's my exposure to construction? Which positions are overdue?

Send
